

"Diameter" Caliper

No. 54-956-201

Max-Cal Diameter Calipers measure internal and external dimensions of large cylindrical and spherical workpieces. External diameters especially can be quickly and accurately read. Diameter Calipers feature the same electronics found in our original Max-Cal caliper, including output, LCD readout, true inch/metric conversion, complete portability (12 months life from 2 batteries) etc.

Special Features—No. 54-956-201:

- Outside range: 0-6" (0-150mm)
- Inside range: .4-6.3" (10-160mm)
- 2-way measurement (outside and inside)
- Resolution: .0005" (.01mm)
- Maximum space between beam and center of curved frame: 4" (100mm)
- Uses printers no.'s: 54-903-210, 211 and 400. Also uses Gageport and SPC Express software.
- Price includes a fitted case and batteries.

Order No.	Description
54-956-201	0—6" (0—150mm) Max-Cal Diameter Caliper
54-902-110	Replacement battery (two required)
