

Girod Double Range Test Indicators

No. 52-562-252

Fowler-Girod Test Indicators have long been regarded internationally as "the best." While retaining the Swiss quality and workmanship for which Girod has become famous, these indicators now offer a "double range" of .060". The new design also features a revolution counter hand to indicate the total number of revolutions of the main hand for fool-proof readings every time.

All Fowler-Girod Indicators meet or exceed Federal specifications for accuracy. Their exceptional design and quality assure you a lifetime of accuracy and total reliability.

Special Features:

- Total measuring range: .060".
- Since indicator point now travels twice as much as previous models, the convenient revolution counter indicates the total number of revolutions for error-free readings.
- Mono-bloc body design has seven fine jeweled bearings isolated in a shock-proof assembly separate from the outer body and cannot be influenced by external pressures.

Order No.	Dial Reading	Dial Divisions	Total Range	Dial Dia.	Dia. Points Included	Point Length
52-562-252	0-15-0	.0005"	.060"	1"	.040, .080 and .120"	.800"
52-562-452	0-15-0	.0005"	.060"	1½"	.040, .080 and .120"	.800"

REQUIRE CERTIFICATION?

Many of our customers inquire on the cost of certifying their newly purchased precision measuring equipment as required by ISO/QS9000. See Page 3 for our handy quick reference chart of certification charges for our basic hand tools. Our certification is traceable to the National Institute of Standards Technology.
