

Fred V. Fowler Company, Inc.

EZ-Read Digit Outside Micrometers

No. 52-222-201

Fowler's revolutionary EZ-READ Digital Micrometer reads to 0.0001" without the need for a vernier scale. It's friction thimble makes measurements quick and accurate.

Special Features:

- Resolution: .0001"
- Accuracy: .0002"
- Insulated steel frame
- Carbide tipped measuring faces
- Revolutionary patented design
- Friction thimble
- 2" and above furnished with standard.
- Meets or exceeds Federal accuracy specs.
- Includes fitted case and wrench

Direct reading to 0.0001" Without a vernier!

Order No.	Range	Resolution	Thimble
Inch Micrometers:			
52-222-201	0-1"	.0001"	Friction
52-222-202	1-2" w/standard	.0001"	Friction
52-222-203	2-3" w/standard	.0001"	Friction
52-222-204	3-4" w/standard	.0001"	Friction
52-222-205	4-5" w/standard	.0001"	Friction
52-222-206	5-6" w/standard	.0001"	Friction
52-222-207	6-7" w/standard	.0001"	Friction
52-222-208	7-8" w/standard	.0001"	Friction
52-222-209	8-9" w/standard	.0001"	Friction
52-222-210	9-10" w/standard	.0001"	Friction
52-222-211	10-11" w/standard	.0001"	Friction
52-222-212	11-12" w/standard	.0001"	Friction
Micrometer Sets:			
52-222-333	0-3" w/standards & case	.0001"	Friction
52-222-444	0-4" w/standard & case	.0001"	Friction
52-222-666	0-6" w/standards & case	.0001"	Friction
Metric Micrometers:			
52-222-225	0—25mm	.001mm	Friction
52-222-250	25-50mm w/standard	.001mm	Friction
52-222-275	50-75mm w/standard	.001mm	Friction
