EZ-Read Interchangeable Anvil Micrometers

No. 52-401-206

Fowler's EZ-Read Interchangeable Anvil Micrometers are very popular in machine and auto repair and for all other applications requiring a versatile micrometer. Each micrometer is equipped with a series of easily interchangeable anvils to fulfill the ranges listed. Standards are also included to accurately adjust the required range.

Special Features:

- Adjusting collar fitted on each anvil to set overall dimensions.
- Spindle and thread hardened and ground.
- Supplied with six anvils.
- Sizes over 1"/25mm include a measuring standard.
- Meets or exceeds Federal accuracy specifications.

Order No.	Range	Graduation	Accuracy	Thimble
