

Special Features—No. 53-422-048:

- The Wyler Magnetic Precision Spirit Level has two prismatic measuring bases for checking horizontal and vertical cylinders and surfaces.
- Sensitivity .0002" per 10".
- Insulated handle to prevent transmission of heat from operator's hand.
- Magnets to ensure complete adherence to vertical surfaces of parts and vertical arbors or shafts.
- Operators on milling and boring units, inspectors and fitters work with free hands.
- An extensive view into the vial unit can be observed from above and from either side.
- Vial unit is set into a steel tube in stress free location. Adjusts into the body of the Spirit Level by a fine thread & screw system.
- Includes wooden case.
- Simple adjustment system.
- Stability of twist to $\pm 5^\circ$.
- Fully in compliance with DIN standards.
