

EZ-Read Digital Large Anvil Micrometer

No. 52-621-001

Special Features:

This micrometer was manufactured to measure items with staggered teeth, such as side milling cutters and saws. In place of the usual anvil, a rectangular pad has been mounted that bridges the gap between the adjacent measurement surfaces. Graduated to .0001"/.001mm. Sizes over 1"/25mm include a standard.

- Carbide measuring face on spindle
- Complete with fitted wooden case.

Order No.	Range	Graduation	Large Anvil Dim.	Thimble
Inch Series:				
52-621-001	0—1"	.0001"	1.970" x .550"	Friction
52-621-002	1—2"	.0001"	2.360" x .550"	Friction
Metric Series:				
52-621-025	0—25mm	.001mm	50mm x 14mm	Friction
