Swiss Pattern & Diamond File Sets

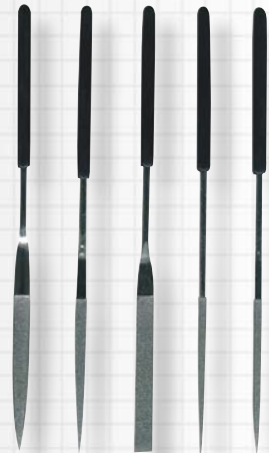

▲ Swiss Pattern Files

No. 55-130-060 & 062—Swiss Pattern Files are economically priced and each set includes a fitted case and 12 of the finest quality files in the most popular shapes.

Fowler Swiss Pattern Files are fine precision cutting tools used by tool and die makers, model makers, delicate instrument and part finishers for a variety of filing jobs. Made to closer tolerances than American pattern files, they are primarily finishing tools for removing burrs, truing narrow grooves, notches, keyways, cleaning corners, smoothing small parts and similar jobs.

Fowler's new Diamond File Set includes five quality files in the most popular shapes. Economically priced, files are supplied with a fitted case.

- Diamond Files, known for their durability, are fine precision cutting tools used by tool and die makers, model makers, delicate instrument and part finishers for a variety of filing jobs.
- Primarily used for finishing tools, removing burrs, truing narrow grooves, notches, keyways, cleaning corners, smoothing small parts and similar jobs.
- Five shapes are equaling, square, half-round, three-square and round.
- Overall length 5.5" with 2" rubber-tipped handles.
