## EZ-Read Digital Thread Micrometer

**Includes 5 sets of anvils.**

No. 52-219-091

Measure the pitch diameter of 60° Unified (UNF) threads from 64 to 3.5 TPI or .4 to 7 mm ISO metric screw threads, which are supplied with the corresponding micrometer. Adjustable anvil with locking lever to set the position of each individual set of spindles and anvils.

### Special Features:

- For measuring pitch diameters of 60° unified (UNF) threads from 64 to 3.5 TPI or .4 to 7mm.
- Non-rotating spindle.
- V-anvil and conical spindle made from high grade steel, hardened and ground.
- Complete set of thread anvils.
- Accuracy: .0002" (.004mm)
- Meets or exceeds Federal accuracy specs.
- Sizes over 1"/25mm include standards.
- Includes case.

Order No.	Range	Pitch	Graduation	Thimble
<b>Inch Series:</b>				
52-219-091	0—1"	64-5	.0001"	Friction
52-219-092	1—2"	44-3.5	.0001"	Friction
<b>Metric Series:</b>				
52-219-825	0—25mm	.4-5	.001mm	Friction
52-219-850	25—50mm	.6-7	.001mm	Friction
