

# Fred V. Fowler Company, Inc.

## **Fowler**® Digi-Pitch Sets

Model No. 52-090-008 shown with ProMax Caliper and anvils not included.

### Fowler's Digi-Pitch Sets offer an affordable alternative to conventional pitch micrometers.

- Easy set up and calibration
- Provides quick, accurate thread measurements
- Can be used as a Go-NO/GO gage
- No need for cumbersome measuring wires or measuring triangles.
- Can be used with electronic or conventional dial calipers
- Permits the measurement of various diameters without changing measuring tools
- Range of measurement is 0 to 4", 0 to 6" or 0 to 8" depending on the length of your caliper which translates to shop savings.
